In addition, during our recent conference call, we understood the required VI sampling to include solely the residence directly west of the Plaza/Village Pantry (for now). If you could please clarify, that would be great.

If you could please submit a written request, I would appreciate it.  
Thanks.

*Hi Sarah,  
I was just wondering if you've started the VI investigation at the homes west of the plaza. I didn't specifically give a time frame in my June 22 letter to do the investigation but I said it needed to be done immediately. Have you contacted the homeowners or received access yet? If not, I'll probably need some kind of VI work plan by July 22 at the latest.  
Thanks,*
